# FRIDAY

## NEW FOR WILMINGTON WHITEFACE BIKE FEST 2013!

We are constantly amazed at the amount of local talent we see riding the track, so we've decided to give credit where credit is due. New for 2013 we are featuring a grand finale of local riders headed by KC Brousseau and Chris Heywood demonstrating their skills by performing jumps and other tricks honed right here on their home town track. Think you've got what it takes to wow the crowd? If so, stop by before the show and show us what you've got – you may be the star of the evening. All ages, all styles and all abilities welcomed!

## SAM PERKINS

One of the highlights of Friday evening will be demonstrations by a group of unbelievable riders, including **Sam Perkins**, originally from Lake Placid. Now 30, Sam has been riding trials for nearly 16 years and has been an influence within the trials community the entire time. In 2001 and 2002, Sam hosted the North American Trials Series, along with the Red Bull event, Bike Move, in Lake Placid. Over the years Sam has been on top of the podium at local and national level events, ranking as high as #2 for his class in North America. Sam spends most of his time training and improving his skills on the bike, even though he no longer competes. Sam performs numerous demonstrations, clinics, and lessons to help promote the growth of trials and mountain biking. When off of the bike, Sam enjoys back country skiing, snow shoeing and working around the house. Sam will be demonstrating the skills of bike trials on his Atomz bikes, which are specially designed for the sport of trials. Bike Trials is a discipline of mountain biking in which the rider attempts to pass through an obstacle course without setting a foot on the ground. Trials riding is an extreme test of bike handling skills, over all kinds of obstacles, both natural and man-made. Perkins will showcase some of his skill using various moves including: gaps, hops, jumps, and drops. He will also include a spectator as an obstacle to ride over. While trials riding is exhilarating for those who ride, it is also an amazing sport to watch for those who prefer to keep both feet on the ground.

# NIGHT

## EVIL ELIAS INGRAHAM

Elias is a resident, not only of Wilmington but also THE resident pro downhiller at the **Whiteface Mountain Bike Park** for the past 8 years. Elias grew up in nearby Sugarbush, NY and quickly found himself competing at the professional level in both downhill as well as cross country mountain bike racing. As co-director of the Whiteface Mountain Bike Park, Elias has a pump track right at work, a perk which has allowed him to sharpen his skills to perfection. **"If you've never ridden a pump track before, the skills you'll form will make you a better and more efficient cross country and downhill mountain biker"**. You'll have the honor of meeting "Evil" Ingraham, (OK, he's not really all that evil), get a boat load of tips, techniques and training from the master himself, ALL FOR **\*\*FREE\*\*** We're pumped!

## Taylor Wright-Sanson

Taylor, a pro unicyclist of Saratoga Springs NY, was born in the Adirondacks. In addition to unicycling, Taylor is an avid skier and spends most of his time in the park. Taylor has been unicycling for 8 years. He competed in the OUI'08 (Canada's national unicycle competition) where he took home a gold medal in the expert category. For the past six summers

Taylor has toured with Circus Smirkus, America's award-winning international circus. He is currently studying Computer Science and Interface Design at Wheaton College in Massachusetts. Taylor competes on the varsity diving team. Taylor is one of five known people to consistently land a backflip off of his unicycle. This, along with many other pictures and videos, as well as contact info, can be found on Taylor's website: [www.taylorwrightsanson.com](http://www.taylorwrightsanson.com)
